Annual Index—Volume 11

Articles

Antoni MH: ***Temporal relationship between life events and two illness measures: A cross-lagged panel analysis*** (Spring):21–26.

Berkowitz AD, Perkins HW: ***Correlates of psychosomatic stress symptoms among farm women: A research note on farm and family functioning*** (Summer):76–81.

Blood pressure variations during a working day at age 28: Effects of different types of work and blood pressure level at age 18. Theorell T, Knox S, Svensson J, Waller D (Spring):36–41.

Blumenthal JA, Lane JD, Williams RB Jr: ***The inhibited power motive, Type A behavior, and patterns of cardiovascular response during the structured interview and thematic apperception test*** (Summer):82–92.

Burks N, Martin B: ***Everyday problems and life change events: Ongoing versus acute sources of stress*** (Spring):27–35.

Congruent stress-preventing factors and anxiety in a long-term stress situation. Milgram NA, Zucker M (Winter): 184–189.

Correlates of psychosomatic stress symptoms among farm women: A research note on farm and family functioning. Berkowitz AD, Perkins HW (Summer):76–81.

Defayolle M, Boutelier C, Bachelard C, Rivolier J, Taylor AJW: ***The stability of psychometric performance during the International Biomedical Expedition to the Antarctic (IBEA)*** (Winter): 157–160.

DeMeuse KP: ***The life events stress—performance linkage: An exploratory study*** (Fall):111–117.

Dimensions of life stress in psychiatric patients. Pilkonis PA, Imber SD, Rubinsky P (Spring):5–10.

The Effect of an academic examination on salivary norepinephrine and immunoglobulin levels. McClelland DC, Ross G, Patel V (Summer):52–59.

Everyday problems and life change events: Ongoing versus acute sources of stress. Burks MA, Martin B (Spring):27–35.

Garrity TF, Ries JB: ***Health status as a mediating factor in the life change—academic performance relationship*** (Fall):118–124.

Gutterman EM, Ehrhardt AA, Markowitz JS, Link BG: ***Vulnerability to stress among women with in utero diethylstilbestrol (DES) exposed daughters*** (Fall):103–110.

Hansell S, Mechanic D: ***Introspectiveness and adolescent symptom reporting*** (Winter):165–176.

Health status as a mediating factor in the life change—academic performance relationship. Garrity TF, Ries JB (Fall):118–124.

Human Experimentation during the International Biomedical Expedition to the Antarctic (IBEA) Taylor AJW, McCormick IA (Winter):161–164.

Hunter SMcD, Parker FC, Williamson GD, Downey AM, Webber LS, Berenson GS: ***Measurement assessment of Type A coronary prone behavior pattern and hyperactivity/problem behaviors in children: Are they related? The Bogalusa heart study*** (Winter):177–183.

The inhibited power motive, Type A behavior, and patterns of cardiovascular response during the structured interview and thematic apperception test. Blumenthal JA, Lane JD, Williams RB Jr (Summer): 82–92.

Introspectiveness and adolescent symptom reporting. Hansell S, Mechanic D (Winter):165–176.

Jamal M: ***Type A behavior and job performance: Some suggestive findings*** (Summer):60–68.

Krause N: ***Stress, control beliefs, and psychological distress: The problem of response bias*** (Spring):11–20.

Lefebvre RC, Sandford SL: ***A multi-modal questionnaire for stress*** (Summer):69–75.

The life events stress—performance linkage: An exploratory study. De Meuse KP (Fall):111–117.

McCaughey BG: ***US Coast Guard collision at sea*** (Spring):42–46.

McClelland DC, Ross G, Patel V: ***The effect of an academic examination on salivary norepinephrine and immunoglobulin levels*** (Summer): 52–59.

McCormick IA, Taylor AJW, Rivolier J, Cazes G: ***A psychometric study of stress and coping during the International Biomedical Expedition to the Antarctic (IBEA)*** (Winter): 150–156.

Measurement assessment of Type A coronary prone behavior pattern and hyperactivity/problem behavior in children: Are they related? The Bogalusa heart study. Hunter SMcD, Parker FC, Williamson GD, Downey AM, Webber LS, Berenson GS (Winter):177–183.

Milgram NA, Zucker M: ***Congruent stress-preventing factors and anxiety in a long-term stress situation*** (Winter):184–189.

A multi-modal questionnaire for stress. Lefebvre RC, Sandford SL (Summer):69–75.

Noise-induced stress in hospital patients: Coping and nonauditory health outcomes. Topf M (Fall): 125–134.

Papciak AS, Feuerstein M, Spiegel JA: ***Stress reactivity in alexithymia: Decoupling of physiological and cognitive responses*** (Fall):135–142.

Pilkonis PA, Imber SD, Rubinsky P: ***Dimensions of life stress in psychiatric patients*** (Spring):5–10.

A psychometric study of stress and coping during the International Biomedical Expedition to the Antarctic (IBEA). McCormick IA, Taylor AJW, Rivolier J, Cazes G (Winter): 150–156.
